Who it's for

- Agencies that sell local SEO or GBP work and have more profile work than the team wants to handle

How the 7 days run

Before	Free audit, then a one-page written scope, confirmed by email. No calls
Day 0	You add our work account as Manager (never Owner) + one short form per location
Days 1-5	Optimization and posts. Customer-facing text goes to you for OK first
Days 6-7	Re-audit on the same 25 points and a branded report per location, in one folder
+3 days	You review (one consolidated revision round) and pay the second $375

After the pilot (optional)

- Monthly care: **$149 per location**, 3-location minimum ($447/month): 8 posts, review replies within 2 business days, a monthly report, an optimization pass. Month to month.
- Extra locations: $249 setup each.

What I guarantee

Delivery. If the agreed work isn't completed within 7 days of receiving access and materials, I keep working at no charge until it is.

What nobody can honestly guarantee

Rankings, map-pack positions, calls, leads, or how fast Google approves edits. Changes Google holds for review are reported as "submitted, pending review".

Straight answer on proof: the process, checklist and sample deliverables are already built (sample audit: allbuiltdifferent-gbp.vercel.app/sample-audit.pdf). I don't have client case studies yet and won't invent any. That's why the first three agencies get a small, fixed-scope pilot, with half the fee due only after they see the work.

Next step: reply to my email with one client's business name and city for the free audit, or send me your questions and I answer each one in writing. daian@allbuiltdifferentagency.com
